

# Pediatric Basic Disaster Life Support (PBDLS)

PBDLS incorporates concepts and strategies of several widely accepted programs to give YOU a training designed to highlight the key aspects of basic pediatric care in a disaster situation.

*A major focus of Pediatric Basic Disaster Life Support is the difference between children and adults. Children have unique medical and psychological needs that must be taken into account during disaster preparedness and response planning. PBDLS reflects the advancements in the science of pediatric care during disasters and will focus on the special vulnerabilities of children during and immediately following a disaster.*

You may register to attend a **1-day training** at one of the following locations.

**April 8, 2014**

Oxford Convention Center  
102 Ed Perry Boulevard  
Oxford, MS 38655  
8:00 a.m.—5:00 p.m.

**April 9, 2014**

Holmes Community College—Grenada Center  
ITC Building, John Keeton Multi-Media Room 111B  
Grenada, MS  
8:00 a.m.—5:00 p.m.

This trainings will cover:

- ▶ **Pediatric Disaster Management**
- ▶ **Pediatric Disaster Preparedness**
